Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE ____ MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

The specification is objected to because the customary U.S. patent headings are missing, i.e., "Background of the Invention," "Brief Description of the Drawings," etc.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The plurality of recitations of "the said" in claims 1, 3, 4, and 6-8 are vague and indefinite. The following recitations are noted to lack antecedent basis: "the fluid intake" in line 4 of claim 1; "the axis" in line 8 of claim 1; "the fluid outlet system" in line 13 of claim 1; "the duct" in line 4 of claim 3 and "the accessories" in line 4 of claim 7. In line 2 of claim 2, "it" is indefinite.

In claim 2, the recitation of "for accommodating and fixing either various accessories" is vague and indefinite. In claim 7, line 3, "the necessary tightness" is vague, indefinite and lacks antecedent basis. In claim 8, lines 2 and 4, "forming a kind of U" and "by any appropriate means," respectively, are vague and indefinite.

Claim 9 is rejected as being generally vague and indefinite due to the recitations that the body has "either the shape of a plug (37) or of a tubular socket" and the two bodies can be juxtaposed either in the form of "a plug socket" or "a T-shaped

connection piece" or "a socket" or "an elbow." The claim, thus, does not particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Allowable Subject Matter

Claims 1-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Girardin (U.S. patent no. 4,717,072), Peters (U.S. patent no. 4,256,141) and Theriot (U.S. patent no. 4,004,610) are cited for the showing of slide valves having bleed ports.
